

§ 143-582. Program requirements.

The written program required under this Article shall describe at a minimum:

- (1) The methods to be used to identify, analyze, and control new or existing hazards, conditions, and operations.
- (2) How managers, supervisors, and employees are responsible for implementing the program, controlling accident-related expenditures, and how continued participation of management and employees will be established, measured, and maintained.
- (3) How the plan will be communicated to all affected employees so that they are informed of work-related physical, chemical, or biological hazards, and controls necessary to prevent injury or illness.
- (4) How managers, supervisors, and employees will receive training in avoidance of job-related injuries and health impairment.
- (5) How workplace accidents will be reported and investigated and how corrective actions will be implemented.
- (6) How safe work practices and rules will be communicated and enforced.
- (7) The safety and health training program that will be made available to employees.
- (8) How employees can make complaints concerning safety and health problems without fear of retaliation.
- (9) How employees will receive medical attention following a work-related injury or illness. (1991 (Reg. Sess., 1992), c. 994, s. 1.)
